Looters Exposed: Zenawi's Economic Development Unable to Produce 6 Million Dollar

Ethiopia under the tyrant rulers is facing challenges in providing food, health, nutrition, water and sanitation, emergency shelter, agriculture and livelihoods, according to the UN Humanitarian Coordinator, Fidele Sarassoro.

To counter these challenges, the UN has allocated US\$6 million from its Central Emergency Response Fund (CERF) because the greed looters and tribalists are unwilling to produce the money required for the starving children and women in Ethiopia.

At the same time, the federal Disaster Risk Management and Food Security Sector (DRMFSS) has announced that rising malnutrition and food insecurity were a growing concern and likely to lead to 6.2 million Ethiopians relying on food aid, out of a population of approximately 77 million.

At present, over 10 million people in the country are dependant on food aid.

According to the DRMFSS, the country has a shortfall of 176,000T of food,. However, this is likely to increase to 390,000T in the months up to December 2009. This report contradicts the Tribalists propaganda on AIGA FORUM who often mislead the tribal herd about Ethiopia's economic prospect.

Reports indicate that four out of five regions have recorded increasing malnutrition. The mismanagement, looting and corruption by the tribalists from Tigray left many vulnerable families in even more difficult conditions leading to an increase in starvation in many parts of Ethiopia including Oromiya, Somali, Amhara and Southern regions.

According to the World Health Organization, 579 new cases of AWD have been reported in Addis Ababa, Somali, Oromiya, Harari and Southern regions. The disease has so far claimed many lives in these regions
