

Tedla Asfaw

Hundreds of Ethiopians are protesting against the presence of Meles Zenawi to co-chair the environmental finance conference with Gordon Brown in London right now. Meles Zenawi has come to London after it launched its pre election terror and sadly the European Union promised to send observers to give legitimacy for this crime. EU is sending its delegates to participate on the coronation of Meles Zenawi for five more years. Opposition leaders and candidates are jailed and killed and it is shame Gordon Brown is seating with a known human right abuser.

Will Gordon Brown seat with Osama Bin Laden to find a solution for terrorism ? That is what he did by seating with the known human right abuser, unelected leader to find a solution for global environmental problem. If the eighty million Ethiopians are from other planet then Gordon Brown is right to worry for the coming death and destruction from the global warming. Ethiopians are currently dying from terror organized by Meles Zenawi while Gordon Brown is worried for future loss of lives due to global warming.

Our people struggle will go on with or without freedom loving people support and no force and terror will stop Ethiopians march towards freedom. Meles Zenawi might be a darling of Gordon Brown but he is not an elected leader of Ethiopia. The least we ask Gordon Brown and other western leaders is not to give money in the name of poverty alleviation that is used to terrorize our people.
