Meles Zenawi, the unelected tyrant, of Ethiopia's invitation by the Italian Prime Minister Silvio Berlusconi to attend the G8 meeting in Italy in coming weeks might be a mix up. What I assume is Silvio Berlusconi, a known womanizer, letter of invitation was not to Meles Zenawi but to Italy Embassy in Addis looking for a beautiful young Ethiopian woman.

Mr. Berlusconi who is in the middle of a sex scandal might think that going to bed with Ethiopian woman is easy because he knows very well that since Meles came to power the export of our young women as sex slaves to Arab countries is a well documented fact that reached also to the attention of his embassies. The poor Ethiopians unanswered cry might have sent a signal to Mr. Berlusconi that Ethiopia has a "leader" who condone the abuse of their women, can also be a good "adviser" to Mr. Berlusconi who just loves young women but also condemn violence against them.

What Mr. Berlusconi failed to understand is that not only Ethiopia has a tyrant who is conspiring with the fate of our young women, he is also someone who is putting the whole country for sale, who have no shame lobbying to "represent Africa" while he has been in power for eighteen years without any mandate from the masses.

On the last G20 meeting in London Meles Zenawi is the only "leader" who attracted huge crowd to condemn him in front of his host Gordon Brown. Then why Mr. Berlusconi failed to recognize this and bring the hated man of Ethiopia to Italy ? This is pure contempt for Ethiopians and I hope he will change his mind when he falls in love with one of our beautiful women on Italy's streets in coming days. I love you Mr. Berlusconi !!!
